International Journal of Production Research

Volume 40, 2002—CONTENTS

No. 1 10 January 2002

Origin of Period Batch Control (PBC). J. BENDERS 1

Operation allocation and materials-handling system selection in a flexible manufacturing system: a sequential modelling approach. J. PAULO, R. S. LASHKARI and S. P. DUTTA 7

Designing the optimal process target levels for multiple quality characteristics. J. TEERAVARAPRUG and B. R. CHO 37

Steel-making process scheduling using Lagrangian relaxation. L. TANG, P. B. LUH, J. LIU and L. FANG 55

Design of manufacturing systems by a hybrid approach with neural network metamodelling and stochastic local search. M.-C. CHEN and T. YANG 71

Cell formation using a Fuzzy Min–Max neural network. D. DOBADO, S. LOZANO, J. M. BUENO and J. LARRAÑETA 93

Key manufacturing capability elements and business performance. L. M. CORBETT and G. S. CLARIDGE 109

Cumulative probability control charts for geometric and exponential process characteristics. L. Y. CHAN, D. K. J. LIN, M. XIE and T. N. GOH 133

Heuristic procedures for the parallel machine problem with tool switches. Y. FATHI and K. W. BARNETTE 151

Data sampling technique (DST) for measuring surface waving. G. CHRYSSOLOURIS, S. FASSOIS and E. VASILEIOU 165

A discrete transfer function model to determine the dynamic stability of a vendor managed inventory supply chain. S. M. DISNEY and D. R. TOWILL 179

Information technology investments and volume-flexibility in production systems. M. KHOUJA and R. L. KUMAR 205

Deadlock avoidance in an automated guidance vehicle system using a coloured Petri net model. N. WU and W. ZENG 223

Co-evolutionary genetic algorithm for multi-machine scheduling: coping with high performance variability. D. H. BAEK and W. C. YOON 239

No. 2 20 January 2002

Disassembly matrix for disassembly processes of products. Y. M. HUANG and C.-T. HUANG ... 255

Optimal batching in a wafer fabrication facility using a multiproduct G/G/c model with batch processing. J. W. FOWLER, N. PHOJANAMONGKOLKIJ, J. K. COCHRAN and D. C. MONTGOMERY ... 275

Rapid prototyping through scanned point data. A. C. LIN and S.-R. LIANG 293

Forecasting errors and the value of information sharing in a supply chain. X. ZHAO and J. XIE ... 311

Statistical tolerance analysis for non-normal or correlated normal component characteristics. J. P. KHAROUFEH and M. J. CHANDRA ... 337

Proposing a world-class manufacturing concept for the make-to-order sector. S. MUDA and L. HENDRY ... 353

Environmental impact assessment in an uncertain environment. I. K. HUI, L. HE and C. DANG ... 375

Optimal solution for the flow path design problem of a balanced unidirectional AGV system. M. KASPI, U. KESSELMAN and J. M. A. TANCHOCO ... 389

Locating cells with bottleneck machines in cellular manufacturing systems. S. WANG and B. R. SARKER ... 403

Three-dimensional reference pulse linear and circular interpolators for CNC systems. M.-Y. YANG and W.-P. HONG ... 425

LP-based heuristics for the capacitated lot-sizing problem: the interaction of model formulation and solution algorithm. A. ALFIERI, P. BRANDIMARTE and S. D'ORAZIO ... 441

The stability of supply chains. C. E. RIDDALLS and S. BENNETT ... 459

Two-stage make-to-order remanufacturing with service-level constraints. G. C. SOUZA and M. E. KETZENBERG ... 477

A note on 'Maximally weighted graph theoretic facilities design planning'. L. AL-HAKIM ... 495

Corrigendum ... 507

No. 3 15 February 2002

Enterprise resource planning systems adoption process: a survey of Canadian organizations. V. KUMAR, B. MAHESHWARI and U. KUMAR ... 509

Applying the network flow model to evaluate an FMC's throughput. T.-Y. WANG and Y.-L. CHEN ... 525

Asymptotic defectiveness of manufacturing plants: an estimate based on process learning curves. F. FRANCESCHINI and M. GALETTO ... 537

Understanding weld modelling processes using a combination of trained neural networks. V. MANI and S. N. OMKAR ... 547

Value chain flexibility: a dichotomy of competence and capability. Q. Zhang, M. A. Vonderembse and J.-S. Lim 561

Product design resources optimization using a non-linear fuzzy quality function deployment model. R. Y. K. Fung, J. Tang, Y. Tu and D. Wang 585

Buffer capacity for accommodating machine downtime in serial production lines. E. Enginarlar, J. Li, S. M. Meerkov and R. Q. Zhang 601

Manufacturing start-up problem solved by mixed-integer quadratic programming and multivariate statistical modelling. D. Xu and S. L. Albin ... 625

Machine-tool selection and operation allocation in FMS: solving a fuzzy goal-programming model using a genetic algorithm. R. Rai, S. Kameshwaran and M. K. Tiwari 641

Guiding functional design of mechanical products through rule-based causal behavioural reasoning. S. B. Tor, G. A. Britton, W. Y. Zhang and Y.-M. Deng 667

Experimental study of the effect of digitizing parameters on digitizing uncertainty with a CMM. C.-X. (J.) Feng and V. Pandey 683

Aggregate order release planning for time-varying demand. H. Missbauer 699

Layer thickness and draft angle selection for stereolithography injection mould tooling. R. Harris, N. Hopkinson, H. Newlyn, R. Hague and P. Dickens 719

A class of genetic algorithms for multiple-level warehouse layout problems. G. Q. Zhang, J. Xue and K. K. Lai 731

Scheduling and routing algorithms for AGVs: a survey. L. Qiu, W.-J. Hsu, S.-Y. Huang and H. Wang 745

Corrigendum 761

No. 4 10 March 2002

Optimization-based parts–machines matching in flexible manufacturing systems. J. Chandra, J. J. Lin and J. J. Talavage 763

Tolerance design of datum systems. G. Pandya, E. Amine Lehtihet and T. M. Cavalier 783

Hybrid genetic algorithm for the economic lot-scheduling problem. I. Moon, E. A. Silver and S. Choi 809

Evaluation of human postures with computer aids and virtual workplace designs. E. J. Carey and T. J. Gallwey 825

Decision algorithm for selection of high-speed machining, EDM or a combination for the manufacture of injection moulds. M. R. Alam, K. S. Lee, M. Rahman and K. S. Sankaran 845

Optimal tooling policy for a tool switching problem of a flexible machine with automatic tool transporter. C.-Y. Song and H. Hwang... 873

Manufacturing cells' design in consideration of various production factors. Y. YIN and K. YASUDA 885

TOC-based performance measures and five focusing steps in a job-shop manufacturing environment. M. GUPTA, H.-J. KO and H. MIN 907

Efficient statistical tolerance analysis for general distributions using three-point information. H. S. SEO and B. M. KWAK 931

Effect of load, processing time and due date variation on the effectiveness of scheduling rules. T. LEJMI and I. SABUNCUOGLU 945

Attractive regions formed by the environment in configuration space: the possibility of achieving high precision sensorless manipulation in production. H. QIAO 975

Single price system model for optimal decisions in capital equipment purchasing. S. TALLURI 1003

Cycle time estimation models for printed circuit board design. K. R. HABERLE, R. J. BURKE and R. J. GRAVES 1017

Book reviews 1029

No. 5 20 March 2002

Innovative product development process by integrating QFD and TRIZ. H. YAMASHINA, T. ITO and H. KAWADA 1031

Cross-correlation and $\bar{X}$-trend control charts for processes with linear shift. M. GÜLTEKIN, J. R. ENGLISH and E. A. ELSAYED 1051

A dynamic scheduling algorithm for a multiple-load multiple-carrier system. D. SINRIECH and J. KOTLARSKI 1065

Acoustic emission analysis for tool wear monitoring in face milling. P. SRINIVASA PAI and P. K. RAMAKRISHNA RAO 1081

Hybrid assembly line design and user's preferences. B. REKIEK, P. DE LIT and A. DELCHAMBRE 1095

A Petri Net based approach to determine the disassembly strategy of a product. M. K. TIWARI, N. SINHA, S. KUMAR, R. RAI and S. K. MUKHOPADHYAY 1113

A spreadsheet method for calculating work completion time probability distributions of paced or linked assembly lines. D. J. JOHNSON 1131

On control strategies in a multi-stage production system. ZHAO X., Q. GONG and J. WANG 1155

Auction-based distributed scheduling in a dynamic job shop environment. P. DEWAN and S. JOSHI 1173

Cross-training policies and team performance. J. SLOMP and E. MOLLEMAN 1193

Multicriteria scheduling using fuzzy theory and tabu search. H. T. LEE, S. H. CHEN and H. Y. KANG 1221

I²QFD: a blackboard-based multiagent system for supporting concurrent engineering projects. H.-P. KAO, E. SU and B. WANG 1235
A study of an integrated inventory with controllable lead time. J. C.-H. PAN and J.-S. YANG 1263
Development of a geometry-based process planning system for surface micromachining. S. CHO, K. LEE and T.-W. KIM 1275
Book reviews 1295

No. 6 15 April 2002

Global supply chain management: a reinforcement learning approach. P. PONTRANDOLFO, A. GOSAVI, O. G. OKOGBAA and T. K. DAS 1299
Robust manufacturing inspection and classification with machine vision. J. HÄCKER, F. ENGELHARDT and D. D. FREY 1319
Process planning for product disassembly. S. K. DAS and S. NAIK 1335
Agile manufacturing: a taxonomy of strategic and technological imperatives. A. GUNASEKARAN and Y. Y. YUSUF 1357
Design of double- and triple-sampling X-bar control charts using genetic algorithms. D. HE, A. GRIGORYAN and M. SIGH 1387
A two-stage heuristic method for balancing mixed-model assembly lines with parallel workstations. P. M. VILARINHO and A. S. SIMARIA 1405
Principle of precision micro-drilling with axial vibration of low frequency. Z. YANG, Q. TAN and L. WANG 1421
Cost–tolerance analysis model based on a neural networks method. Z.-C. LIN and D.-Y. CHANG 1429
Event-based controller to avoid deadlock and collisions in zone-control AGVS. M. P. FANTI 1453
Worker assignment in cellular manufacturing considering technical and human skills. B. A. NORMAN, W. THARMMAPHORNPHILAS, K. L. NEEDY, B. BIDANDA and R. C. WARNER 1479
Accessibility analysis for star probes in automatic inspection of rotational parts. J. C. RICO, G. VALIÑO, S. MATEOS, E. CUESTA and C. M. SUÁREZ 1493
Book reviews 1525

No. 7 10 May 2002

Modular simulation tool for modelling JIT manufacturing. F. M. MARTÍNEZ and L. M. A. BEDIA 1529

Novel algorithmic approach to generate the 'number of passes' and 'depth of cuts' for the optimization routines of multipass machining. A. BAYKASOĞLU and T. DERELİ 1549

A methodology for monitoring system performance. S. TALLURI and J. SARKIS 1567

Modelling and a genetic algorithm solution for the slab stack shuffling problem when implementing steel rolling schedules. L. TANG, J. LIU, A. RONG and Z. YANG 1583

Extending the algebraic method to identify dimensional chains for angular tolerance charting. P. JI and J. XUE 1597

Optimization of multiple responses using a fuzzy-rule based inference system. D. LU and J. ANTONY 1613

A comparative study of the performance of push and pull systems in the presence of emergency orders. K. KIM, D. CHHAJED and U. S. PALEKAR 1627

Analysis and compensation of workpiece errors in turning. X. LI and R. DU 1647

Optimal 3D layout of industrial facilities. A. P. BARBOSA-PÓVOA, R. MATEUS and A. Q. NOVAIS 1669

Modelling and optimization of a GMA welding process by genetic algorithm and response surface methodology. D. KIM, S. RHEE and H. PARK ... 1699

Performance evaluation of a flexible machining/assembly system and routing comparisons. J. MA and M. MATSUI 1713

Schedule instability, service level and cost in a material requirements planning system. X. BAI, J. S. DAVIS, J. J. KANET, S. CANTRELL and J. W. PATTERSON 1725

No. 8 20 May 2002

Adaptive production scheduling of virtual production systems using object-oriented Petri nets with changeable structure. R. Y. K. FUNG, Z. JIANG, M. J. ZUO and P. Y. L. TU 1759

Inspection resource assignment in a multistage manufacturing system with an inspection error model. Y.-R. SHIAU 1787

Conceptualizing tools for autonomous vehicle storage and retrieval systems. C. J. MALMBORG 1807

Bi-parameter curve interpolation. H.-Y. XU and J. S. DAI 1823

Work allocation strategies for serial assembly lines under high labour turnover. L. F. MUÑOZ and J. R. VILLALOBOS 1835

Assessing the effectiveness of US voluntary environmental programmes: an empirical study. S. A. MELNYK, R. P. SROUFE, R. L. CALANTONE and F. L. MONTABON 1853

Optimal decision making using cost accounting information. L. H. BOYD and J. F. COX III 1879

Hybrid genetic algorithm and simulated annealing approach for the optimization of process plans for prismatic parts. W. D. Li, S. K. Ong and A. Y. C. Nee 1899

Solving a multistage partial inspection problem using genetic algorithms. A. Heredia-Langner, D. C. Montgomery and W. M. Carlyle 1923

Integrated manufacturing, employee and business performance: Australian and New Zealand evidence. D. Challis, D. Samson and B. Lawson 1941

Technical note on 'Manufacturing batch size and ordering policy for products with shelf lives'. S. Viswanathan and S. K. Goyal 1965

Response to technical note on 'Manufacturing batch size and ordering policy for products with shelf lives'. B. R. Sarker and M. R. Chowdhury 1971

No. 9 15 June 2002

Balancing and scheduling of surface mount technology lines. T. Sawik 1973

Optimal screening limits in multi-stage assemblies. B. R. Cho and M. S. Govindaluri 1993

Assessing computer numerical control machines using data envelopment analysis. S. Sun 2011

A product-configuration-driven system for assembly planning within a product data management environment. J. X. Gao, N. W. Bowland and R. Sharma 2041

Performance-based optimal selection of cutting conditions and cutting tools in multipass turning operations using genetic algorithms. X. Wang, Z. J. Da, A. K. Balaji and I. S. Jawahir 2053

Theory development: an industrial/post-industrial perspective on manufacturing. A. Y. Nahm and M. A. Vonderembse 2067

Comprehensive design of experiments-based framework for optimal CMM inspection and uncertainty analysis of form tolerances. A. Y. T. Sun, S. Anand and J. S. Y. Tang 2097

Angular interpolations for planar implicit curves. H.-Y. Xu, J. S. Dai and H.-Y. Tam 2125

Comparative study of simulated annealing, genetic algorithms and tabu search for solving binary and comprehensive machine-grouping problems. S. Zolfaghari and M. Liang 2141

Machining error compensation using radial basis function network based on CAD/CAM/CAI integration concept. M. W. Cho and T. I. Seo 2159

Combined double sampling and variable sampling interval $\bar{X}$ chart. V. Carot, J. M. Jabaloyes and T. Carot 2175

No. 10 10 July 2002

Conceptualizing manufacturing flexibility: an operational approach and a comparative evaluation. Y. KAHYAOGLU and S. KAYALIGIL 2187

Wafer bin map recognition using a neural network approach. S. F. LIU, F. L. CHEN and W. B. LU 2207

A transiently chaotic neural network approach to the design of cellular manufacturing. M. SOLEYMANPOUR, P. VRAT and R. SHANKAR 2225

Surface roughness modelling considering uncertainty in measurements. C. J. LUIS PÉREZ 2245

An Internet-enabled image- and model-based virtual machining system. Y. B. LUO, S. K. ONG, D. F. CHEN and A. Y. C. NEE... 2269

Cutting optimization with variable-sized stock and inventory status data. L. KOS and J. DUHOVNIK 2289

Monitoring automatically controlled processes using statistical control charts. M. GÜLTEKİN, E. A. ELSAYED, J. R. ENGLISH and A. S. HAUKSDÓTTIR 2303

Human performance modelling as an aid in the process of manufacturing system design: a pilot study. T. S. BAINES and J. M. KAY 2321

Linking manufacturing strategy decisions on process choice with manufacturing planning and control systems. J. OLHAGER and M. RUDBERG 2335

Integrated design of the block layout and aisle structure by simulated annealing. Y. WU and E. APPLETON 2353

Process capability indices for a regularly adjusted process. M. XIE, K. L. TSUI, T. N. GOH and D. Q. CAI 2367

New method of tool orientation determination by enveloping element for five-axis machining of spatial cam. R. S. LEE and J. N. LEE 2379

Uncertainty under MRP-planned manufacture: review and categorization. S. C. L. KOH, S. M. SAAD and M. H. JONES... 2399

Book reviews 2423

No. 11 20 July 2002

A comprehensive review of tolerancing research. Y. S. HONG and T.-C. CHANG 2425

Scheduling manufacturing systems for delayed product differentiation in agile manufacturing. D. HE and A. BABAYAN 2461

Simulation metamodelling with neural networks: an experimental investigation. I. SABUNCUOGLU and S. TOUHAMI 2483

Hybrid neuro-fuzzy approach to the generation of measuring points for knowledge-based inspection planning. I. HWANG, H. LEE and S. HA 2507

Modelling and analysis of business process reengineering. A. Gunasekaran and B. Kobu 2521

Bayesian burn-in procedures for limited failure populations. Y. I. Kwon and J. B. Keats 2547

Gated MaxWIP: a strategy for controlling multistage production systems. A. Grosfeld-Nir and M. Magazine 2557

Disassembly line in product recovery. A. Güngör and S. M. Gupta ... 2569

Statistical design of np-charts with multiple control regions. J. K. Jolayemi 2591

Optimization of the assignment of circuit cards to assembly lines in electronics assembly. K. P. Ellis and S. Bhoja 2609

Evaluating dampening effects of alternative lot-sizing rules to reduce MRP system nervousness. C.-J. Ho 2633

Automatic sampling for CMM inspection planning of free-form surfaces. D. F. Elkott, H. A. Elmaraghy and W. H. Elmaraghy 2653

No. 12 15 August 2002

Exploratory study of the adoption of manufacturing technology innovations in the USA and the UK. P. M. Swamidass and G. W. Winch 2677

The set of just-in-time management strategies: an assessment of their impact on plant-level productivity and input-factor substitutability using variable cost function estimates. J. A. Brox and C. Fader 2705

A fuzzy-soft learning vector quantization for control chart pattern recognition. M.-S. Yang and J.-H. Yang 2721

Deadlock-free scheduling in flexible manufacturing systems using Petri nets. I. B. Abdallah, H. A. Elmaraghy and T. Elmekkawy 2733

An adaptive sphere-fitting method for sequential tolerance control. T. M. Cavalier, E. A. Lehtihet, E. Del Castillo and R. G. McGarvey 2757

Heuristics for single-pass welding task sequencing. K.-Y. Kim, B. A. Norman and B. O. Nnaji 2769

Process planning for reliable high-speed machining of moulds. L. N. López De Lacalle, A. Lamikiz, M. A. Salgado, S. Herranz and A. Rivero 2789

Adaptive scheduling of batch servers in flow shops. D. J. Van Der Zee 2811

Automated post bonding inspection by using machine vision techniques. M.-J. J. Wang, W.-Y. Wu and C.-C. Hsu 2835

On fuzzy and probabilistic control charts. H. Taleb and M. Limam 2849

Analysis of the surface roughness and dimensional accuracy capability of fused deposition modelling processes. C. J. Luis Pérez 2865

Work sequencing in a manufacturing cell with limited labour constraints. C. T. Mosier and F. Mahmoodi 2883

Five-axis NC milling of ruled surfaces: optimal geometry of a conical tool. F. MONIES, J. N. FELICES, W. RUBIO, J.-M. REDONNET and P. LAGARRIGUE 2901

Comparison of push and pull systems with transporters: a metamodelling approach. P. DAMODARAN and S. MELOUK 2923

Design and analysis of optimal material distribution policies in flexible manufacturing systems using a single AGV. B. VEERAVALLI, G. RAJESH and N. VISWANADHAM 2937

No. 13 10 September 2002

Unit load and material-handling considerations in facility layout design. I. CASTILLO and B. A. PETERS 2955

Filtering and smoothing methods for mixed particle count distributions. S. E. SOMERVILLE, D. C. MONTGOMERY and G. C. RUNGER 2991

Development of a business model for diagnosing uncertainty in ERP environments. S. C. L. KOH and S. M. SAAD 3015

A study on the performance of scheduling rules in buffer-constrained dynamic flowshops. O. HOLTHAUS and C. RAJENDRAN 3041

An analytic-hierarchy-process based simulation model for implementation and analysis of computer-aided systems. Z. AYAG 3053

Strategic consensus in the internal supply chain: exploring the manufacturing–purchasing link. M. PAGELL and D. R. KRAUSE 3075

SISO run-to-run feedback controller using triple EWMA smoothing for semiconductor manufacturing processes. S.-K. S. FAN, B. C. JIANG, C.-H. JEN and C.-C. WANG 3093

A fuzzy logic approach to an integrated maintenance/production scheduling algorithm. A. SUDIARSO and A. W. LABIB... 3121

Deadlock avoidance for manufacturing multipart re-entrant flow lines using a matrix-based discrete event controller. J. MIRELES JR, F. L. LEWIS and A. GÜREL 3139

Distance-based fuzzy MCDM approach for evaluating flexible manufacturing system alternatives. E. E. KARSAK 3167

Disassembly sequence generation: a Petri net based heuristic approach. R. RAI, V. RAI, M. K. TIWARI and V. ALLADA 3183

Constrained optimization model for the design of an adaptive $\bar{X}$ chart. M. S. DE MAGALHÃES, A. F. B. COSTA and E. K. EPPRECHT 3199

Book reviews 3219

Announcement 3223

No. 14 20 September 2002

Integrating ABM/TOC approaches for performance improvement: a framework and application. M. C. GUPTA, S. J. BAXENDALE and P. S. RAJU 3225

Tool-path generation for five-axis machining of free-form surfaces based on accessibility analysis. X. J. XU, C. BRADLEY, Y. F. ZHANG, H. T. LOH and Y. S. WONG 3253

Online learning of the cause-and-effect knowledge of a manufacturing process. J.-G. BAEK, C.-O. KIM and S. S. KIM 3275

Incremental cell formation considering alternative machines. O. MAHESH and G. SRINIVASAN... 3291

A method for assessing the impact of product development on the company. A. COLLAINE, P. LUTZ and J.-J. LESAGE 3311

Statistical process control subject to a labour resource constraint. T. R. ROHLEDER and E. A. SILVER 3337

A concurrent hierarchical evolution approach to assembly process planning. Q. GUAN, J. H. LIU and Y. F. ZHONG 3357

Computing optimal (s, S) policies for inventory systems with a cut-off transaction size and the option of joint replenishment. R. H. HOLLIER, K. L. MAK and K. K. LAI 3375

Waste disposal and waste avoidance. H. WIESE and S. ZELEWSKI 3391

High performance loading robot design for a tool-delivery system. H. GOUGAR, S. CHO and V. PRABHU 3401

Model for negotiating the price and due date for a single order with multiple suppliers in a make-to-order environment. A. CAKRAVASTIA and N. NAKAMURA 3425

Machining fixture verification for linear fixture systems. J. J.-X. LIU and D. R. STRONG 3441

A study of Manufacturing Resources Planning (MRPII) implementation in China. X. ZHAO, F. LAI and S. YOUNG 3461

Book reviews 3479

Erratum 3481

Announcement 3483

No. 15 15 October 2002

Special Issue: Selected papers from the 16th ICPR 'Production and technology for the benefit of mankind—protecting nature and life on Earth'

Foreword. J. E. MIDDLE 3485

The Norman Dudley Paper: Emerging trends in large-scale supply chain management. A. VILLA 3487

Analysis of the factors affecting real-world value stream performance. P. CHILDERHOUSE and D. R. TOWILL 3499

Understanding risk and uncertainty in supplier networks—a transaction cost approach. J. HALLIKAS, V.-M. VIROLAINEN and M. TUOMINEN 3519

Analysing supply chain performance using a balanced measurement method. H.-J. BULLINGER, M. KÜHNER and A. VAN HOOF 3533

Supervisory control and data acquisition for virtual enterprise. A. M. STANESCU, I. DUMITRACHE, A. CURAJ, S. I. CARAMIHAI and M. CHIRCOR 3545

Analysis of information flow in hierarchical organizations. D. BEN-ARIEH and M. A. POLLATSCHECK 3561

Visual factory: basic principles and the 'zoning' approach. N. BILALIS, G. SCROUBELOS, A. ANTONIADIS, D. EMIRIS and D. KOULOURIOTIS 3575

IT tools to improve the performance of metalworking SMEs. S. RAHIMIFARD, R. W. BAGSHAW, S. T. NEWMAN and R. BELL 3589

Factory automation control software designing method based on Petri nets. K. KURIHARA, S. TAKIGAWA, N. NISHIUCHI and M. KITAOKA 3605

Towards self-adaptive production systems: modular generic simulation models for continuous replanning and reconfiguration. S. KIRCHNER and L. MÄRZ 3627

Alternative graph formulation for solving complex factory-scheduling problems. D. PACCIARELLI 3641

Robust scheduling in an advanced planning and scheduling environment. M. KURODA, H. SHIN and A. ZINNOHARA 3655

Agent-based scheduling in production systems. T.-T. DANG and B. FRANKOVIC 3669

ExPlanTech: applying multi-agent systems in production planning. M. PECHOUCEK, A. RIHA, J. VOKRINEK, V. MARIK and V. PRAZMA 3681

Virtual reality in requirement analysis for CIM system development suitable for SMEs. O. ERENAY, M. HASHEMIPOUR and S. KAYALIGIL 3693

Investigation of the reconfigurable control system for an agile manufacturing cell. J. ZHANG, F. T. S. CHAN, P. LI, H. C. W. LAU, R. W. L. IP and P. SAMARANAYAK 3709

Development of an automated process planning and production activity control system for the manufacturing of engineered work surfaces. F. CONNOLLY and C. SHEAHAN 3725

Feature-based CAD-CAE integration model for injection-moulded product design. Y.-M. DENG, G. A. BRITTON, Y. C. LAM, S. B. TOR and Y. S. MA 3737

Development of a dual-robot system for prototype production. H.-K. HUANG and G. C. I. LIN 3751

Compensation of systematic errors in five-axis high-speed machining. S. BJÖRKLUND, P. BJURSTAM and A. NOVAK 3765

The tooling system configuration in a new manufacturing system architecture. B. M. COLOSIMO, A. POGGI and T. TOLIO 3779

Real-time cutting simulation system of a milling operation for autonomous and intelligent machine tools. H. NARITA, K. SHIRASE, H. WAKAMATSU, A. TSUMAYA and E. ARAI 3791

New millennium frontiers on precision engineering. I. D. MARINESCU, J. RAMIREZ-SALAS and A. A. NOREYAN 3807

Ultrasonic on-machine measurement for internal topographies. T. PFEIFER and M. BENZ 3821

Estimating quality costs in an automotive stamping plant through the use of simulation. A. S. DE RUYTER, M. J. CARDEW-HALL and P. D. HODGSON 3835

Analysis of a product recovery system. K. NAKASHIMA, H. ARIMITSU, T. NOSE and S. KURIYAMA 3849

The integration of the standards systems of quality management, environmental management and occupational health and safety management. J. C. D. O. MATIAS and D. A. COELHO 3857

Global manufacturing and the sustainable economy. C. O'BRIEN 3867

Formal specification and analysis of production systems. V. BOS and J. J. T. KLEIJN... 3879

Strategic capacity management: meeting technological demands and performance criteria. R. DEKKERS 3895

Development of a decision-support system for the formulation of manufacturing strategy. K. LEE, H. JEONG, C. PARK and J. PARK 3913

A rapid tool for strategic internal analysis of manufacturing firms. L. E. QUEZADA, F. M. CÓRDOVA, P. PALOMINOS and W. RAMÍREZ 3931

A study on setting standard time using work achievement quotient. S. NAKAYAMA, K. NAKAYAMA and H. NAKAYAMA 3945

Changes in remuneration practice in production: success factors of sustainable remuneration systems for innovative concepts of work organization. H.-J. BULLINGER and W. MENRAD 3955

ERGOtool for the integral improvement of ergonomics and process flow in assembly. P. VAN LINGEN, G. VAN RHIJN, M. DE LOOZE, P. VINK, E. KONINGSVELD, G. TUINZAAD and T. LESKINEN 3973

A construction algorithm for designing guide paths of automated guided vehicle systems. J. K. LIM, J. M. LIM, K. YOSHIMOTO, K. H. KIM and T. TAKAHASHI... 3981

Decentralized autonomous AGV system for material handling. S. BERMAN and Y. EDAN 3995

An integrated approach to the facilities and material handling system design. G. AIELLO, M. ENEA and G. GALANTE 4007

Call for Papers 4019

No. 16 10 November 2002

Strategic supply chain development by integration of key global logistical process linkages. P. W. Robertson, P. R. Gibson and J. T. Flanagan 4021

Clone-based modelling for optimal production planning in process industries. A. T. Ünal, M. Draman, İ. K. Altinel, N. Bajgoric and A. İ. Gerişkovan 4041

A case study evaluating the ergonomic and productivity impacts of partial automation strategies in the electronics industry. W. P. Neumann, S. Kihlberg, P. Medbo, S. E. Mathiassen and J. Winkel 4059

Manufacturing cost deployment. H. Yamashina and T. Kubo 4077

GA-based integrated approach to FMS part type selection and machine-loading problem. H. Yang and Z. Wu 4093

Flexibility analysis: a methodology and a case study. Y. Kahyaoglu, S. Kayaligil and J. A. Buzacott 4111

Online control using integrated moving average model for manufacturing errors. R. Kacker and N. F. Zhang 4131

Generating daily production plans for complex manufacturing facilities using multi-objective genetic algorithms. J. K. Cochran and H.-N. Chen 4147

Expansion of group technology to handle logical operations. M.-L. Li and R. E. Parkin 4169

Intelligent agent framework to determine the optimal conflict-free path for an automated guided vehicles system. S. P. Singh and M. K. Tiwari ... 4195

Multiproduct Kanban-like Control Systems. B. Baynat, J. A., Buzacott and Y. Dallery 4225

A model for performance monitoring of suppliers. S. Talluri and J. Sarkis 4257

Computer-aided design, manufacturing and inspection system integration for optical lens production. J. H. Cho, M. W. Cho and M. K. Kim 4271

Integrated Material Planning and Operations Scheduling (IMPOS). H. Fallah and E. Shayan 4285

Book review 4305

No. 17 20 November 2002

Part Special Issue: Modelling, Planning and Scheduling of Manufacturing Systems

Guest Editorial. A. Dolgui and F. Vernadat 4307

UEML: towards a unified enterprise modelling language. F. Vernadat 4309

An integrated model for inventory and production planning in a two-stage hybrid production system. E.-H. Aghezzaf and H. Van Landeghem 4323

Scheduling production tasks in a two-stage FMS. J. Błażewicz, G. Pawlak and B. Walter 4341

Sequencing a hybrid two-stage flowshop with dedicated machines. F. RIANE, A. ARTIBA and S. E. ELMAGHRABY 4353

Stability of Johnson's schedule with respect to limited machine availability. O. BRAUN, T.-C. LAI, G. SCHMIDT and Y. N. SOTSKOV 4381

Generalized newsboy model to compute the optimal planned lead times in assembly systems. M.-A. OULD-LOULY and A. DOLGUI 4401

Open Submission Papers

Empirical research on supply chain management: a critical review and recommendations. D. C. K. HO, K. F. AU and E. NEWTON 4415

An intelligent feature-based process planning system for prismatic parts. L. PATIL and S. S. PANDE 4431

Support vector machines for recognizing shifts in correlated and other manufacturing processes. R. B. CHINNAM... 4449

A geometrical approach to computing expected cycle times for zone-based storage layouts in AS/RS. J. ASHAYERI, R. M. HEUTS, M. W. T. VALKENBURG, H. C. VERAART and M. R. WILHELM 4467

An efficient discrete event model of assembly/disassembly production networks. V. S. KOUIKOGLOU 4485

TestLAN approach and protocols for the integration of distributed assembly and test networks. N. P. WILLIAMS, Y. LIU and S. Y. NOF 4505

Linguistic-based meta-heuristic optimization model for flexible job shop scheduling. A. BAYKASOĞLU 4523

A comparative study of lean and agile manufacturing with a related survey of current practices in the UK. Y. Y. YUSUF and E. O. ADELEYE 4545

Control of deadlock and blocking for production systems with unreliable workstations. M. A. LAWLEY 4563

Call for papers 4583

No. 18 15 December 2002

Information system utilization in supply chain integration efforts. S. W. KIM and R. NARASIMHAN 4585

Production/maintenance cooperative scheduling using multi-agents and fuzzy logic. T. COUDERT, B. GRABOT and B. ARCHIMÈDE 4611

Tolerancing algebra: a building block for handling tolerance interactions in design and manufacturing—Part 1: Concept and representation. Y. S. HONG and T.-C. CHANG 4633

Application of an evolutionary fuzzy system for the estimation of workforce deployment and cross-training in an assembly environment. M. K. TIWARI and D. ROY 4651

Ball grid array (BGA) substrate conduct paths inspection using two-dimensional wavelet transform. C.-H. YEH... 4675

Hybrid GA and SA dynamic set-up planning optimization. S. K. Ong, J. Ding and A. Y. C. Nee 4697

New production models: a strategic view. A. De Toni and S. Tonchia 4721

Certifying environmental management systems by the ISO 14001 standards. G. Vastag and S. A. Melnyk 4743

Aligning manufacturing flexibility with environmental uncertainty: evidence from high-technology component manufacturers in Taiwan. S.-C. Chang, N.-P. Lin and C. Sheu 4765

Theory and simulation for the identification of the link geometric errors for a five-axis machine tool using a telescoping magnetic ball-bar. Y. Abbaszadeh-Mir, J. R. R. Mayer, G. Cloutier and C. Fortin ... 4781

Software-driven changes to business processes: an empirical study of impacts of Enterprise Resource Planning (ERP) systems at the local level. T. F. Gattiker and D. L. Goodhue 4799

Capacity estimation of a multi-product unreliable production line. W. Abdul-Kader and A. Gharbi 4815

Production planning system for a combination of make-to-stock and make-to-order products. H. Tsubone, Y. Ishikawa and H. Yamamoto 4835
